Other Frameworks

In addition to developing custom software from scratch, we also have the capability to build on top of existing frameworks like. For small projects, we recommend using these pre-built frameworks to optimize costs.

ErpNext

An alternative way of approach low code development. ErpNext is a good choice for build a fully services system for Enterprise with a low price.

HR & Labor Management for EVN Group

We provide a multi-platform application to serve users of the Vietnam Electricity Group. With the aim of human resources management, certificate control and certificate issuance. Not only that, users can easily carry personal information related to certificates, certificates, authorization letters only on the mobile phone without any paperwork. Combined with the IOT tracking system and alarm when people are not qualified to enter the issuance area, etc.

Web application

The screenshot shows the 'TRANG QUẢN LÝ THÔNG TIN AN TOÀN' (Safety Information Management Dashboard) for EVN GENCO3. It features a sidebar with navigation options like 'Trang Chủ', 'Nhân Sự', 'Quản lý chứng chỉ', 'Quản lý ra vào', 'Phê duyệt', 'Bảng tin', 'Cài đặt', and 'Hướng dẫn sử dụng'. The main content area includes four summary cards: 'EPS' (763 người), 'Nhà thầu' (1 người), 'Chứng chỉ' (78 pcs), and 'Bài viết' (1 tin). Below these are two charts: 'Biểu đồ nhân viên và phòng ban' (Employee and Department Chart) and 'Biểu đồ chứng chỉ' (Certificate Chart).
